

International Conference on Recent Progress in Many Body Theories

July 27-31, 2009

July 26: 4 Pedagogical Tutorials

Department of Physics - The Ohio State University, Columbus, OH

<http://icamconferences.org/rpmbt15-09/>

Topics

- * Quantum Gases
- * Optical Lattices
- * Strongly Correlated Electrons
- * Quantum Liquids
- * Nuclear and Quark Physics
- * Computational Quantum Many-Body Physics

The 15th meeting of the series International Conference on Recent Progress in Many Body Theories (RPMBT15) will take place in the Department of Physics at The Ohio State University, Columbus, OH from July 27-31, 2009.

July 26: the Sunday before the meeting there will be pedagogical tutorials by G. Kotliar, S. Mathur, M. Randeria and S. Sachdev

The Feenberg and Kummel Awards will be awarded during the conference.

Organizing Committee:
E. Braaten, R. Furnstahl,
T-L. Ho, M. Randeria and N. Trivedi

Confirmed Speakers

D. Blume (Washington State)
J. Boronat (Barcelona)
K. Damle (Tata Institute, Mumbai)
E. Demler (Harvard)
S. Hartnoll (Harvard)
N. Kawashima (ISSP, Japan)
G. Kotliar (Rutgers)
D. Lee (NC State)
J. McGreevy (MIT)
W. Metzner (MPI, Stuttgart)
N. Prokofiev (U. Mass. Amherst)
S. Stringari (INFM-BEC, Trento)
S. Sachdev (Harvard)
T. Schafer (NC State)
U. Schneider (Mainz)
A. Schwenk (Triumpf)
T. Senthil (MIT)
B. S. Shastry (UC Santa Cruz)
D. Son (INT, Seattle)
S. Tan (Yale)
J. Thomas (Duke)
M. Troyer (ETH, Zurich)
A. Vishvanath (Berkeley)
M. Zwierlein (MIT)
W. Zwerger (Munich)
